

During Summer 2, our reading ambassadors took part in a survey around school. The reading ambassadors were able to complete a learning walk of the school and consider the reading resources we have in school currently and how this could be improved next year.

After the survey was completed, the children were able to identify new books that they would like to read. A number of new books were ordered and the organisation of the library was improved to make choosing a book an easy experience for all children.

This is something that the reading ambassadors will maintain and ensure that is always kept well organised.

A number of new displays were also launched around school to show case the importance of reading in our academy.
